

About CF Foundation:

Their mission is to assure the development of the means to cure and control cystic fibrosis and to improve the quality of life for those with the disease.

Cystic fibrosis is an inherited chronic disease that affects the lungs and digestive system of about 30,000 children and adults in the United States. A defective gene and its protein product cause the body to produce unusually sticky mucus that clogs the lungs and obstructs the pancreas.

About the course: Established in 1961, Alta Vista Country Club is a private, classic 18-hole, par 72 championship golf club. Centrally located in northern Orange County, Alta Vista measures more than 6,500 yards of beautifully manicured fairways and greens – with six sets of tees to meet every golfer's needs.

The course is built over a naturally rolling terrain and features 89 sand bunkers, majestic pines, and lakes that come into play on several holes.
